Foster homes are always needed. Our ability to be effective in rescuing Goldens is determined by the quality and numbers of Foster Homes we have available. Without this element of rescue we would not be able to function.

We do realize that not everyone can foster, but we still need your help! We especially need people with good organizational and/or people skills and those with leadership ability. In addition, we occasionally need informed volunteers to help with educational functions such as the Cornell Veterinary School Open House, and other public events.

I am interested in volunteering for GRRRCNY as a

Foster Home (if you have checked this box, please fill out the foster home application and include when you mail this form.)
